*MPCA determines environmental impact statement not required for Riverview LLP  
proposed West River Dairy expansion*

We appreciate the time and effort MPCA staff devoted to reviewing this proposal and considering public input throughout the process.

For decades, Riverview has been committed to investing in the rural communities where we live and work, providing a culture of opportunity for our coworkers and neighbors, and responsibly stewarding our environment and resources. This expansion represents a long-term investment in the Morris area that will support local jobs, local businesses, and Minnesota's agricultural economy.

We appreciate everyone who took the time to learn about our project, attend meetings, ask questions, and participate in the review process. Throughout that process, Riverview has worked openly with regulators and stakeholders, and we remain committed to that approach moving forward.

We also remain committed to being a responsible steward of the land and a good neighbor for years to come.
