

Discover Riverview Welcomes Students for a Day of Learning and Exploration

Riverview recently hosted its annual Discover Riverview event, welcoming coworkers' children entering 5th and 6th grade for a hands-on day of learning and exploration. The program is designed to introduce students to the many career opportunities within Riverview while helping them better understand the work their parents and family members do each day.

Discover Riverview follows a two-year rotation of topics, giving students the opportunity to explore different areas of the business if they participate in both years. In 2025, students learned about business and accounting, calf health, equipment operations, and Riverview's Core Values. In 2026, the program focused on dairy cattle, construction, Riverview's culture, and a mid-construction tour of the Stevens Milk Plant.

Discover Riverview aims to spark curiosity, encourage learning, and help students connect classroom concepts to real-world careers. The event also highlights Riverview's commitment to investing in future generations and creating meaningful opportunities for coworkers and their families.

About Riverview

Rooted in providing opportunities for the next generation, Riverview's story began as a crop and beef farm in 1939 and began using the name "Riverview" in the 1970s. Riverview opened its first dairy farm in 1995.

Today, Riverview LLP has grown into a diversified agribusiness that is family and employee owned. Riverview strives to provide a respectful, ethical work environment, ensure animal health and comfort, enhance the productivity of the land, and add value to its communities.
